- Addition of "Joint Loss Committee" to the Safety and Health Committee
- The posting of committee meeting on the employee website.

### **Review of Reported Injuries**

There were no reported injuries since the last meeting.

### **New Equipment Review**

No new equipment was added since the last meeting.

### **Other**

It was suggested that we look into the "Ov-Glove" as a possible safety tool in the Kiln room. Mary Naczas will get a pair and try them out.
